## INDEPENDENT AUDITORS' REPORT

To the Board of Trustees  
**Colby Community College**  
Colby, Kansas

We have audited the accompanying balance sheets of **Colby Community College**, as of June 30, 2010 and 2009, and the related statements of revenues, expenses, and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the College's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America, the *Kansas Municipal Audit Guide*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of Colby Community College Endowment Foundation were not audited in accordance with *Government Auditing Standards*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The College is in compliance with K.S.A. 12-5040 in which the College is subsidizing health insurance premiums regardless of age and, as a result, the College is not accounting for post employment benefits. Accounting principles generally accepted in the United States of America require that accounting and financial reporting of post employment benefits other than pensions be included in **Colby Community College's** financial statements, which would increase the liability and the expenditures in the above financial statements. The amount by which this departure would affect the liabilities, fund balances and expenditures is not reasonably determinable.

In our opinion, except for the effects of not accounting for post employment benefits, as described in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of **Colby Community College** as of June 30, 2010 and 2009, and the changes in its financial position and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Except for the departure noted above and in the following paragraph, in our opinion, **Colby Community College's** financial statements referred to above present fairly, in all material respects, the financial position of the College as of June 30, 2010 and 2009, and the changes in its financial position and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1, the Colby Community College Endowment Foundation does not present its financial statements in conformity with accounting principles generally accepted in the United States of America. Furthermore, the Foundation does not present a statement of cash flows as of June 30, 2010 and 2009. The difference between generally accepted accounting principles and the modified cash basis, although not readily determinable, is thought to be material.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 21, 2011, on our consideration of **Colby Community College's** internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 5 and 22 through 24 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise **Colby Community College's** financial statements as a whole. The introductory section and combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

**COLBY COMMUNITY COLLEGE**  
Management's Discussion and Analysis  
For the Years Ended June 30, 2010 and 2009

---

## Introduction

Management's discussion and analysis is an overview of the financial position and financial activities of **Colby Community College** (the College). The College's management prepared this discussion. It should be read in conjunction with the College's financial statements and notes that follow.

The College prepared the financial statements in accordance with Governmental Accounting Standards Board (GASB) principles. GASB Statement No. 35 establishes standards for external financial reporting for public colleges and universities and requires the financial statements be presented on a consolidated basis to focus on the College as a whole. Previously, financial statements focused on the accountability of individual fund groups rather than on the College as a whole. The accompanying financial statements include the accounts of the College.

There are three financial statements presented: 1) Balance Sheets; 2) Statements of Revenues, Expenses and Changes in Net Assets and 3) Statements of Cash Flows.

## Balance Sheet

The Balance Sheet presents the assets, liabilities, and net assets of the College at the end of the fiscal year, June 30. The purpose of the Balance Sheet is to present a snapshot of the financial condition of the College. The total of net assets is one indicator of the current financial condition of the College.

The assets and liabilities are categorized between current and non-current. Current assets and liabilities typically mature or become due within the next 12 months. Non-current assets are those held for longer periods of time (e.g. buildings and equipment) while non-current liabilities are those payable beyond the next 12 months (e.g. long-term debt).

Net assets are presented in four categories: 1) Unrestricted net assets are available for operational requirements relative to day-to-day college activities. 2) Restricted - Expendable assets are those that have some specific purpose or time-based requirement relative to the utilization of funds. These funds are available for use after said stipulations are fulfilled. 3) Invested in Capital Assets, Net of Debt represents that portion of college net assets committed to long-term investments such as buildings and equipment. 4) Restricted Non-Expendable net assets are endowments for which only the interest portion can be spent. The College has no restricted non-expendable net assets at June 30, 2010 and 2009.

Following is a summary of the Balance Sheets as of June 30, 2010 and 2009, respectively (in millions):

	<u><b>2010</b></u>	<u><b>2009</b></u>
<b>Assets</b>		
Current Assets	\$ 1.9	\$ 2.7
Non-Current Assets	<u>9.8</u>	<u>9.5</u>

## Statement of Revenues, Expenses and Changes in Net Assets

The Statement of Revenues, Expenses and Changes in Net Assets presents the College's financial results for the fiscal year. The statement includes the College's revenues and expenses, both operating and non-operating. Following is a summary of the Statements of Revenues, Expenses and Changes in Net Assets for the Years Ended June 30, 2010 and 2009, respectively (in millions):

	<u>2010</u>	<u>2009</u>
Operating Revenues	\$ 7.8	\$ 6.9
Operating Expenses	<u>14.1</u>	<u>12.3</u>

Change in Net Assets	(.5)	.6
Net Assets, Beginning of Year	<u>5.5</u>	<u>4.9</u>
Net Assets, End of Year	<u>\$ 5.0</u>	<u>\$ 5.5</u>

## Statement of Cash Flows

The Statement of Cash Flows presents information about the cash activity of the College. The statement shows the major sources and uses of cash. Following is a summary of the Statements of Cash Flows for the Years Ended June 30, 2010 and 2009, respectively (in millions):

	<u>2010</u>	<u>2009</u>
Cash Provided (Used) By:		
Operating Activities	\$ (5.5)	\$ (5.5)
Non-Capital Financing Activities	5.7	5.8
Capital and Related Financing Activities	(.9)	(2.2)
Investing Activities	<u>.0</u>	<u>.0</u>
Net Change in Cash	(.7)	(1.9)
Cash, Beginning of Year	<u>2.0</u>	<u>3.9</u>
Cash, End of Year	<u>\$ 1.3</u>	<u>\$ 2.0</u>

## Economic Outlook

Recent events have caused significant economic concern across the nation, and even on a world-wide basis. While Thomas County is not isolated from such economic downturn, we are in a better position than many urban areas. Continued reduction in state funding challenges the College to develop alternative sources of income; this will continue to be an issue in coming years. The College will continue to seek ways of increasing enrollment both through additional programs and strong recruiting initiatives across the tri-state area. Management will continue to be diligent in utilization of all resources, enabling continued program enhancement and growth.

Three-fourths of our revenue comes primarily from three sources, with each of the three being approximately equal. Of the three primary sources, local property taxes along with student tuition and fees remain relatively strong and constant (even increasing). However, relative to our third primary source of revenue (state operating grant funding), we continue to experience significant declines. Replacing this loss with other revenue (increase enrollment, more diverse non-traditional offerings, etc.) will be necessary to maintain the current level of operations. The remaining fourth of our revenue is generated from room and board, a variety of grant funding sources, bookstore sales, and various others. We expect no significant problems or reductions with these sources of revenue.

Expenditures are categorized as follows: Academics – 43%, Student Support and Scholarships – 19%, Institutional and Athletics – 21%, General and Debt Service – 17%. Over 57% of our costs relate to Salaries,

Wages and Benefits (this amounts to nearly 85% after eliminating relatively fixed costs). The College administration and Board of Trustees continue to seek methods of increasing operational efficiency, leveraging current resources to generate additional revenue, and broaden our revenue base to effectively absorb necessary program and operational costs. This challenge will be especially acute moving forward, based on the premise that we will experience even lower state funding than current levels.

The component units' separately issued financial statements can be obtained by contacting the College Business office. Also, further questions concerning this report or the financial status of Colby Community College should be directed to the College Business office at 1255 S. Range, Colby, Kansas (785) 460-5550.

**NOTE 1 –SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Organization**

**Colby Community College** is located in northwest Kansas in Thomas County. The College was organized and established in 1964 under the provisions of then Section 72-6901 *et. seq.* of Kansas Statutes Annotated (now K.S.A. 71-201 *et seq.*). The College is a public two-year community college offering a comprehensive curriculum with liberal arts and sciences, as well as vocational and technical programs for credit and noncredit students from Thomas County and surrounding communities.

The financial statements of the College have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The College's reports are based on all applicable Governmental Accounting Standards Board (GASB) pronouncements as well as applicable Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Review Boards of the Committee on Accounting Procedure issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

The financial records of the Endowment Foundation (reported as a component unit of the College) are maintained on a modified cash basis. Differences between modified cash and accrual basis accounting are very minor, and therefore deemed to be immaterial to these financial statements taken as a whole.

**Financial Reporting Entity**

The College is governed by an elected six-member board. As required by accounting principles generally accepted in the United States of America, these financial statements present **Colby Community College** (the primary government) and its component unit. The component unit is included in the College's reporting entity because of the significance of its operational or financial relationship with the College.

In May 2002, GASB issued Statement No. 39, Determining Whether Certain Organizations are Component Units. The Statement amends Statement No. 14, The Financial Reporting Entity, to provide additional guidance to determine whether certain organizations for which the College is not financially accountable should be reported as component units based on the nature and significance of their relationship with the College. Generally, it requires reporting, as a component unit, an organization that raises and holds economic resources for the direct benefit of a governmental unit. The College implemented this change in the fiscal year ended June 30, 2004.

Colby Community College Endowment Foundation is a discretely presented component unit of the College and is included in the component unit column in the College's basic financial statements. It is reported in a separate column to emphasize that it is a not-for-profit entity legally separate from the College. The discretely presented component unit has a June 30<sup>th</sup> year end.

The Colby Community College Endowment Foundation is a not-for-profit corporation organized to raise funds to support educational undertakings at **Colby Community College**, and to receive and hold in trust any property transferred to the Foundation for the benefit of the College, or any student or employee of the College, managing all property received according to the uses specified by the donors or, in case the gift is a general one, to such uses as may be agreed upon by the Board of Directors. Scholarships totaling \$188,400 were provided to the College during the year.

Complete financial statements of the Foundation can be obtained from the College's business office or from its respective office at 1255 S. Range, Colby, Kansas 67701.

**Measurement Focus and Basis of Accounting**

For financial statement reporting purposes, the College is considered a special-purpose government engaged only in business-type activities. Accordingly, the College's financial statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred, regardless of the timing of related cash flows. All significant intra-agency transactions have been eliminated.

**NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Non-exchange transactions, in which the College receives value without directly giving equal value in return, includes property taxes; federal, state and local grants; State appropriations and other contributions. On an accrual basis, revenue from property taxes is recognized in the period for which the levy is intended to finance. Revenue from grants, State appropriations, and other contributions are recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used of the fiscal year when use is first permitted; matching requirements, in which the College must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the College on a reimbursement basis.

**Budgetary Information**

Kansas Statutes require that an annual operating budget be legally adopted for the Current Funds – Unrestricted. The statutes provide for the following sequence and timetable for the adoption of the legal annual operating budget:

1. Preparation of the budget for the succeeding fiscal year on or before August 1<sup>st</sup>.
2. Publication in local newspaper on or before August 5<sup>th</sup> of the proposed budget and notice of public hearing on the budget.
3. Public hearing on or before August 15<sup>th</sup>, but at least ten days after publication of notice of hearing.
4. Adoption of the final budget on or before August 25<sup>th</sup>.

The statutes allow for the governing body to increase the originally adopted budget for previously unbudgeted increases in revenue other than ad valorem property taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after publication the hearing may be held and the governing body may amend the budget at that time. There were no such budget amendments for the year ended June 30, 2010.

The statutes permit transferring budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Budget comparison schedules are presented in supplementary information for each fund showing actual receipts and expenditures compared to legally budgeted receipts and expenditures.

All legal annual operating budgets are prepared using the cash basis of accounting, modified by the recording of encumbrances. Revenues are recognized when cash is received. Expenditures include disbursements and encumbrances. Encumbrances are commitments by the College for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. All unencumbered appropriations (legal budget expenditure authority) lapse at year-end.

Spending in funds which are not subject to the legal annual operating budget requirement is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the Board.

**Budgetary compliance – Legal Basis**

By statute, the College prepares its annual budget on a legal basis of accounting as described in Note 1. A reconciliation of these legal basis statements to the GAAP statements is presented in the Notes to Required Supplementary Information on pages 22 through 24.

**Revenue Classification**

The college has classified its revenues as either operating or nonoperating according to the following criteria.

Operating Revenues – Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship allowances, (2) sales and services of auxiliary enterprises, and (3) most federal, state and local grants.

**NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Nonoperating Revenues** – Non operating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as state aid, property taxes and investment income.

**Property Taxes**

Property taxes are levied each calendar year on all taxable real property located in the taxing district. Property taxes are recorded on an accrual basis of accounting.

Collection of current year property tax by the County Treasurer is not completed, apportioned nor distributed to the various subdivisions until the succeeding year, such procedure being in conformity with governing state statutes. Consequently, current year property taxes receivable are not available as a resource that can be used to finance the current year operations of the College; and therefore, are not susceptible to accrual. Accruals of uncollected current year property taxes are offset by deferred revenues.

It is not practicable to apportion delinquent taxes held by the County Treasurer at the end of the audit period and, further, the amounts thereof are not material in relationship to the financial statements taken as a whole.

The College's property taxes are assessed on a calendar year basis, are levied, and become a lien on the property on November 1<sup>st</sup> of each year. The determination of assessed valuation and the collection of property taxes for all political subdivisions in the State of Kansas is the responsibility of the various counties. The County Appraiser's Office annually determines assessed valuation and the County Clerk spreads the annual assessment to the taxing units. One-half of the property taxes are due December 20<sup>th</sup> and the second half is due May 10<sup>th</sup>. The College draws available funds from the County Treasurer's office at designated times throughout the year. Delinquent tax payments are recognized as revenue in the year received.

**Accounts Receivable**

Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff. Accounts receivable also include amounts due from Federal Financial Assistance Programs and other Grants. Accounts receivable are recorded net of estimated allowances for uncollectible amounts.

Management determines the adequacy of the allowance for doubtful accounts based upon review of the aged accounts receivable. Amounts determined uncollectible are charged to the allowance account and removed from accounts receivable.

**Capital Assets**

Capital assets include property, plant, equipment, and infrastructure assets, such as roads and sidewalks. Capital assets are defined by the College as assets with an initial unit cost of \$5,000 or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvement are capitalized as projects are constructed.

Property, plant, and equipment of the College are depreciated using the straight-line method over the following estimated useful lives (see Note 3 for further detail):

<u>Assets</u>	<u>Years</u>
Buildings	50
Land Improvements	20
Machinery and Equipment	7-15
Vehicles	8
Computer Hardware/Software	5

**NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Inventories and Prepaid Items**

Inventories consist of items held for resale by the bookstore and are stated at the lower of cost or market. The College also holds farm inventory items which are held for resale by the farm program and are valued at estimated market value. The cost is recorded as expenses as the inventories are depleted. The College records certain payments to vendors that reflect costs applicable to future accounting periods as prepaid items in its financial statements.

**Federal Financial Assistance Programs**

The College participates in federally funded PELL Grants, SEOG Grants, Federal Work-Study, Federal Family Education Loans, Academic Competiveness Grants, and Perkins Loans programs. Federal programs are audited in accordance with the Single Audit Act Amendments of 1996, the U.S. Office of Management and Budget Revised Circular A-133 *Audits of States, Local Governments, and Non-Profit Organizations*, and the Compliance Supplement.

**Net Assets**

The College's net assets are classified as follows:

- a. *Invested in capital assets, net of related debt*: This represents the College's total investment in capital assets, net of outstanding debt obligations related to those capital assets.
- b. *Restricted net assets-expendable*: Restricted expendable net assets include resources in which the College is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.
- c. *Restricted net assets-nonexpendable*: Nonexpendable restricted net assets consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal. The College has no restricted nonexpendable net assets at June 30, 2010.
- d. *Unrestricted net assets*: Unrestricted net assets represent resources derived from student tuition and fees, state appropriations, sales and services of auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the College and may be used at the discretion of the governing board to meet current expenses for any lawful purpose.

**Compensated Absences**

The College provides paid vacations to all full-time employees based on years of employment. Employees who accrue leave time will be allowed to accumulate their vacation days if they are unable to use their earned vacation time within the current contract year. Accumulated vacation days must be used within four months after the contract year has ended (or by October 31) or the vacation days will be lost.

The College's policy regarding sick leave pay permits employees to accumulate leave days at a rate of 10 days per year up to 90 days. Upon retirement or accepted resignation of employment at the College, a Professional Employee will be reimbursed ten percent of the sick days the employee has accumulated. This does not apply if early retirement is used. The estimated liability for compensated absences at June 30, 2010 and 2009 totals \$40,062 and \$35,283 respectively. The College did not record this liability as of June 30, 2010.

**NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Encumbrances**

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is utilized in the Governmental Funds. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

**Scholarship Discounts and Allowances**

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship allowances in the statements of revenue, expense, and change in net assets. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the College, and the amount that is paid by students and/or third parties making payments on the student's behalf. Certain governmental grants, such as PELL, Supplemental Educational Opportunity Grants (SEOG), and other federal, state or nongovernmental programs, are recorded as either operating or non-operating revenues in the College's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the College has recorded a scholarship discount and allowance.

**Cash**

For purposes of the statements of cash flows, cash consists of the College's bank deposits with original maturities of three months or less.

**NOTE 2 – CASH AND INVESTMENTS**

**Deposits**

K.S.A. 9-1401 establishes the depositories which may be used by the College. The statute requires banks eligible to hold the College's funds have a main or branch bank in the county in which the College is located or in an adjoining county if such institution has been designated as an official depository and the banks provide an acceptable rate of return on funds. In addition, K.S.A. 9-1402 requires the banks to pledge securities for deposits in excess of FDIC coverage. The College has not further limited its interest rate risk in its investment policy.

K.S.A. 12-1675 limits the College's investment of idle funds to time deposits, open accounts, and certificates of deposit with allowable financial institutions; U.S. government securities; temporary notes; no-fund warrants; repurchase agreements; and the Kansas Municipal Investment Pool. The College has no investment policy that would further limit its investment choices.

*Concentration of credit risk.* State statutes place no limit on the amount the College may invest in any one issuer as long as the investments are adequately secured under K.S.A. 9-1402 and 9-1405.

*Custodial credit risk – deposits.* Custodial credit risk is the risk that in the event of a bank failure, the College's deposits may not be returned to it. State statutes require the College's deposits in financial institutions to be entirely covered by federal depository insurance or by collateral held under a joint custody receipt issued by a bank within the State of Kansas, the Federal Reserve Bank of Kansas City, or the Federal Home Loan Bank of Topeka, except during designated "peak periods" when required coverage is 50%. The College did not use "peak periods" during the fiscal year ending June 30, 2010. All deposits were legally secured at June 30, 2010.

**NOTE 2 – CASH AND INVESTMENTS (continued)**

At June 30, 2009, the College's carrying amount of deposits was \$1,271,848 and the bank balance was \$1,351,458. Of the bank balance, \$1,236,234 was covered by federal depository insurance and \$115,224 was collateralized with securities held by the pledging financial institutions' agents in the College's name. In addition, **Colby Community College** had \$930 of cash on hand.

The carrying amount of deposits for the Endowment Foundation, a discretely presented component unit, was \$1,094,535 and the bank balance was \$1,099,247. The entire bank balance was covered by FDIC or SIPC insurance coverage.

*Custodial credit risk – investments.* For an investment, this is the risk that, in the event of the failure of the issuer or counterparty, the College will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State statutes require investments to be adequately secured.

**Investments**

At year end, the Endowment Foundations' investment balances consisted of \$3,757,604 in marketable securities with an estimated fair value of \$3,688,848, \$10,000 in Thomas County Community Foundation Magnet Money Investment – Designated Until Funds are Matched, and \$107,200 Land Held for Investment.

In determining fair value, Colby Community College Endowment Foundation uses various valuation approaches within the fair value measurement framework. Fair value measurements are determined based on the assumptions that market participants would use in pricing an asset or liability.

Accounting guidance establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Accounting guidance defines levels within the hierarchy based on the reliability of inputs as follows:

- Level 1 – Valuations based on unadjusted quoted prices for identical assets or liabilities in active markets;
- Level 2 – Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets; and
- Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models and similar techniques not based on market, exchange, dealer or broker-traded transactions.

Following is a description of the inputs and valuation methodologies used for assets measured at fair value on a recurring basis and disclosed in the notes to financial statements, as well as the general classification of such assets pursuant to the valuation hierarchy.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include privately held mutual funds. The Foundation had no Level 2 investments during the years ended June 30, 2010. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

A building capital lease obligation in the amount of \$770,000 at June 30, 2010 consists of an indenture for the issuance of Refunding Certificates of Participation dated September 1, 2001, for the new classroom building and addition to the Northwest Kansas Cultural Arts Center. The College leases the property from the trustee of the indenture and is required to make lease payments sufficient to retire the Certificates of Participation, and will obtain title to the property upon full payment of the obligation. The effective interest rate is 4.482 percent per annum. The lease includes an original term of ten years commencing September 1, 2001, and a renewal term commencing on the last day of the original term for an additional four-year period. The lease contains a purchase option wherein the College may retire the obligation prior to the end of the lease. The purchase option price is the amount necessary to pay the currently due basic rental payment, any additional rental due and any additional amount necessary to redeem the outstanding certificates at maturity or on the earliest redemption date.

**NOTE 6 – COMPLIANCE WITH REVENUE BOND PROVISION**

The Student Housing System Revenue Bonds – Series 2007 requires that the College fix and maintain rates, fees and other charges of the System, which are sufficient, after payment of costs of operating and maintaining the System, to produce net revenues each year equal to not less than 125% of the System's annual debt service and to apply available monies to maintain minimum required balances in certain of the funds and accounts created under the Bond Resolution. "Net revenues" of the System will mean all System Revenues, less all System Operating expenses, plus the net revenue of the bookstore operation of the College.

The College did not produce net revenues equal to or greater than 125% of the System's annual service requirement for the year ended June 30, 2010.

The Bond Resolution requires that the College maintain a Debt Service Reserve Account not to exceed the lesser of 10% of the original principal amount of the Parity Bonds, the maximum annual Debt Service Requirements for the Parity Bonds, or 125% of the average annual Debt Service Requirements for the Parity Bonds. The College is in compliance with their Debt Service Reserve Account requirements.

**NOTE 7 – DEFINED BENEFIT PENSION PLAN**

**Plan Description.** The College contributes to the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, et seq. KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Kansas law establishes and amends benefit provisions. KPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to KPERS (611 S. Kansas, Suite 100, Topeka, KS 66603) or by calling 1-888-275-5737.

**Funding Policy.** K.S.A. 74-4919 establishes the KPERS member-employee contribution rate at 4% and 6% (if hired on or after July 1, 2009) of covered salary. Member-employees' contributions are withheld by their employer and paid to KPERS according to the provisions of section 414(h) of the Internal Revenue Code. The State of Kansas is required to contribute the remaining amount necessary to achieve the actuarially determined contribution rate. The State currently contributes 8.57% of covered payroll and 16.07% for non-licensed KPERS retirees and 20.07% for licensed KPERS retirees. These contribution requirements are established by KPERS and are periodically revised. The State of Kansas' contributions to KPERS for all Kansas public school employees for the years ending June 30, 2010, 2009, and 2008 were \$248,468,186, \$242,277,363, and \$220,815,154, respectively, equal to the required contributions for each year as set forth by the legislature.

**NOTE 8 – RISK MANAGEMENT**

The College is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The College has been able to obtain errors and omissions insurance at a cost considered to be economically justifiable.

The College carries commercial insurance for all other risks of loss, including property, general liability, inland marine, crime, umbrella, auto, and fidelity bond coverage.

Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three calendar years.

**NOTE 9 - LITIGATION**

The College is party to various legal proceedings, which normally occur in governmental operations. These legal proceedings are not likely to have a material adverse impact on the affected funds of the college.

**NOTE 10 – COMPARATIVE DATA**

Comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the College's financial position and operations. The College has changed the grouping of the accounts in the financial statements in the current year and the prior year comparative totals have been changed to be in conformity with these changes.

**NOTE 11 – INTERFUND TRANSFERS**

A summary of interfund transfers by fund type is as follows:

	Transfers In	Transfers Out
General	\$1,203,374	\$2,135,358
Adult Basic Education	21,400	-
Adult Supplemental Education	23,256	-
Student Union	-	340,495
Athletics	650,955	-
Non-Budgeted Funds	<u>3,298,614</u>	<u>2,721,746</u>
Total	<u>\$5,197,599</u>	<u>\$5,197,599</u>

**NOTE 12 – OTHER POST EMPLOYMENT BENEFITS**

As provided by K.S.A. 12-5040, the local government allows retirees to participate in the group health insurance plan. During the year ended June 30, 2010, approximately 9 retirees participated in this plan and the College paid \$41,678 premiums for these retirees. Any remaining subsidy to retirees due to the plan's level premium structure has not been quantified in these financial statements.

Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the College makes health care benefits available to eligible former employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premium is paid in full by the insured. There is no cost to the College under this program.

**NOTE 13 – TERMINATION BENEFITS**

The College provides an early retirement program for certain eligible employees if the employee:

- a. is currently an employee of the college; and
- b. is not less than age 59 and meets the KPERS provision for early retirement; and
- c. has 15 years of employment at the college immediately prior to the request for early retirement; and
- d. a majority of the 15 years of service shall have been full-time service.

Those eligible under this program may receive benefits for up to 5 years. Payments to retired employees under this plan were \$46,468 for the year ended June 30, 2010.

**NOTE 14 – RELATED PARTY TRANSACTIONS**

The following is a summary of related party transactions.

<u>Entity</u>	<u>Relationship</u>	<u>Transaction</u>	<u>Amount</u>

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Trustees  
**Colby Community College**  
Colby, Kansas

We have audited the financial statements of **Colby Community College** as of and for the year ended June 30, 2010 and have issued our report thereon dated February 21, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the *Kansas Municipal Audit Guide*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of Colby Community College Endowment Foundation were not audited in accordance with Governmental Auditing Standards.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered **Colby Community College's** internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of **Colby Community College's** internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of **Colby Community College's** internal control over financial reporting.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify deficiencies in internal control over financial reporting that we consider to be a material weakness, as defined above.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether **Colby Community College's** financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of **Colby Community College** in a separate letter dated February 21, 2011.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD  
HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL  
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the Board of Trustees  
**Colby Community College**  
Colby, Kansas

**Compliance**

We have audited **Colby Community College's** compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of **Colby Community College's** major federal programs for the year ended June 30, 2010. **Colby Community College's** major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of **Colby Community College's** management. Our responsibility is to express an opinion on **Colby Community College's** compliance based on our audit. **Colby Community College's** basic financial statements include the operations of Colby Community College Endowment Foundation, which received \$0 in federal awards during the year ended June 30, 2010. Our audit described below, did not include the operation of this component unit because it received no federal awards.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about **Colby Community College's** compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on **Colby Community College's** compliance with those requirements.

In our opinion, **Colby Community College** complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

**Internal Control Over Compliance**

Management of **Colby Community College**, is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered **Colby Community College's** internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control

**Colby Community College**

over compliance. Accordingly, we do not express an opinion on the effectiveness of **Colby Community College's** internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Trustees, others within the entity, the Kansas Board of Regents, the Kansas Division of Accounts and Reports, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Notes to Schedule of Federal Awards  
For the Year Ended June 30, 2010

---

**NOTE 1 – BASIS OF PRESENTATION**

The schedule of expenditures of federal awards has been prepared on the accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

**NOTE 2 – FEDERAL LOAN PROGRAMS**

Federal direct programs are presented by the Federal Department. Federal flow-through programs are presented by the entity through which the College received the federal financial assistance.

Outstanding loans at June 30, 2010 under the Perkins Loan Program are \$588,387.

The College also participates in the Federal Family Education Loan Program (CFDA 84.032) (including the Federal Stafford Loan, Federal PLUS, and Federal Unsubsidized Stafford Loan programs). The dollar amounts are not listed in the schedule of expenditures of federal awards. The College is not the recipient of the funds. Such programs are considered as a component of the Student Financial Assistance major program. New loans made to eligible students pursuant to these programs during the year ended June 30, 2010 totaled \$2,237,650.

The College also participates in the Federal Direct Loan Program (CFDA 84.268). The dollar amounts are listed in the schedule of expenditures of federal awards; however, the College is not the recipient of the funds. Such programs are considered as a component of the Student Financial Assistance Major Program. New loans made to eligible students pursuant to these programs during the year ended June 30, 2010 totaled \$34,885.
